## EXPERIENCES

### [FarmlyPlace](#), Berlin(De) — C/C++ Developer

September 2022 - January 2023

I've developed in C/C++ utilizing Arduino technologies. Utilized Arduino technologies.

I've also learnt Solidity making smart contracts.

### [HomeMeal](#), Berlin(De) — Dart/Flutter Developer

October 2022 - November 2022

I've been working with HomeMeal as a full stack developer in Dart/Flutter making database backup security measures and some interfaces.

I've also been using technologies like Firebase Cloud Functions and Google APIs.
